**Reference Letter for Sautech Pty Ltd
Backup Services**

23rd January 2025

To Whom It May Concern,

I am writing this letter to provide a reference for Sautech with whom we have been working for several years for all our backup management and IT support services.

Sautech has been responsible for ensuring that all our business-critical data is regularly backed up and securely stored. Over the years, their service has proven to be highly reliable, and the backups have functioned flawlessly.

There have been a few occasions when we required a restoration of data from our backups, and each time, Sautech was able to restore the data quickly and without any issues. Their team's responsiveness and professionalism have been remarkable, ensuring minimal disruption to our operations.

We are extremely satisfied with their services and would highly recommend Sautech to any business in need of dependable IT and backup solutions.

Sincerely,

Eugene Kruger
Ambledown
Systems Supervisor
