HELPDESK PROCESS & LOGGING A CALL

Sautech support requests can be logged by utilizing either of the following methods:

Option 1:

By sending an email to our helpdesk at helpdesk@sautech.net.

Once this has been done, a request ID will automatically be generated by the system and the sender will receive an automated acknowledgement response email which will include all the details of the request logged.

This email will also include a link whereby the requester can track the progress of the call logged.

Our dedicated staff are monitoring the helpdesk daily, and assigns the incoming calls to the relevant technicians.

Option 2:

By contacting our helpdesk telephonically on 011 768 1790 during office hours.

Should you require us to log a call on your behalf, you may do so by contacting our helpdesk.

Option 3:

By sending a what's app to 064 907 3436.

Kindly take the time to use the what's app number for all requests, as this is our preferred method.

After Hours:

Please note, after hours, **option 3 is the only option** that can be used. Technicians may not be contacted directly, as after hour support is on a rotational basis.

Please also note, after hours charges may apply - depending on the type of contract / support agreement you have with us.
