1 Purpose

This Policy regulates access to the Paratus Data Centers by Customers and contractors gaining access to the Data Centers.

2 Scope

This Policy applies to the Armada Data Center (Armada) and Cable Landing Station (CLS). It is enforced by the following Administrators:

Basie Esterhuyse;

Len Franken

Renier Pienaar

3 Reference documents

- ISO 9001: 2015 Quality Management System, Clauses 8.1
- ISO 27001: 2013 Information Security Management System, Clauses 6.1.2 and 8.1
- PCI DSS Requirement 12 Maintain A Policy That Addresses Information Security For All Personnel

4 Access

4.1 Access Application – Personal/Individual

- a. Email the NOC the Access Request Form at support.na@paratus.africa and schedule a visit;
- b. Include the visit date, time, duration, ID number, name of company as well as purpose of visit (any technical work being done needs to be described);
- c. Attach a copy of the ID to the email request when applying for the first time;
- d. A ticket will be logged with the NOC;
- e. Upon arrival at the Data Center, present the ID, sign in at reception and sign out when leaving.
- f. Subsequent visits will require only an ID number as the ID is captured on the access management system.
- g. Follow the standard security procedure on arrival at the front gate and front office.

4.2 Access Application - 3rd Party obo the Customer

Only the Customer's primary or secondary contact may request a 3rd party to go to the Data Centers and must arrange access for the 3rd party in accordance with this procedure.

- a. Email the NOC the Access Form at support.na@paratus.africa and schedule a visit;
[The person requesting the 3rd party to be on site must give 24 hours notice prior to visiting at any time and be approved by the Data Center Manager.]
- c. Include the visit date, time, duration, name of company of the requestor as well as purpose of visit (any technical work being done needs to be described);
- d. list the 3rd party under the visitor list on the form;
- e. Attach a copy of the 3rd party and requestor's ID to the email request when applying for the first time, refer to the ID numbers on subsequent applications;
- f. A ticket will be logged with the NOC;
- g. Upon arrival at the Data Center, present the ID, sign in at reception and sign out when leaving.
- h. Subsequent visits will require only an ID number as the ID is captured on the access management system.
- i. Follow the standard security procedure on arrival at the front gate and front office.

4.3 Access to Data Hall

Access to the Data Hall is provided through the Data Center Employee that accompanies the Customer or 3rd party to the location where work will be done.

- a. Data Center Employees book out the cabinet key at the start of the activity;
- b. Asset list to be provided of what is being installed;
- c. Equipment to be installed in consideration of hot and cold aisle;
- d. Cabling inside the rack to be neat and tidy and labelled;
- e. Final inspection to be done by Armada technical of work done (daily inspections done on multi day work);
- f. keys are signed back into the safe.

[NO Keys are to be removed from the premises or handed to a Customer or 3rd party. Only Data Center Employees escorting the Customer or 3rd party will unlock and lock the cabinet]

This document is private and confidential and the property of Paratus Telecommunications (Pty) Ltd. Printed copies of this document are not subject to document control and are for information purposes only.

- 4.3.1 Any cross connect between Cabinets is installed by Data Center technical team ONLY. No cabling between cabinets can be installed by ANY Paratus Employee. All cabling / cross connects require a job card.
- 4.3.2 The Customer is responsible for determining the time it takes to access the Space and include that calculation in their response time to their customers.

4.4 Access Rules

- a. The Customer will provide Paratus with a list of authorised persons who may access the Customer's Space.
- b. Paratus may refuse entry at the Data Center to any person who is not named on a Customer's authorised persons list, unless such person is accompanying an authorised person and has been pre-authorised as a visitor.
- c. The Customer must appoint a primary contact and a secondary contact. These administrators will be responsible for maintaining the Customer's authorised persons list. The appointed administrators should be contactable 24 hours a day, if Paratus needs to contact the administrator(s) to verify access requested by persons claiming to be acting on the Customer's behalf.
- d. The Customer's appointed administrators must understand the Customer's operational and technical requirements relating to the Customer's Space and must be fully authorised to grant access to the Customer's Space.
- e. It remains the Customer's responsibility to maintain the authorised persons list specific to the Customer. Paratus takes no responsibility if a person who is listed on the Customer's authorised persons list, accesses the Customer's Space and causes damage, purposely or accidentally. The Customer remains responsible for their selection of authorised persons and is also responsible for the removal of persons from the list, if such person may no longer act in the interests of the Customer. Should there be insufficient time to remove such a person from the list, the Customer must contact the NOC immediately.
- f. Paratus reserves the right to refuse or withdraw approval of any person on a Customer's authorised persons list if such refusal or withdrawal is reasonable such as where the person has violated any of the Paratus Policies or where such person in Paratus' opinion poses as a security risk.

- g. Non-scheduled visits by a Customer, excluding an emergency, may lead to a delay in gaining access to the Data Center or access could be denied. For all non-scheduled visits by a customer, Paratus may require the Customer's administrative contact to call the Data Center to authorise the person's entry into the Customer's Space.
- h. Advance notice is required due to the numerous customer groups and various infrastructure activities that could be taking place simultaneously. Providing as much notice as possible, increases the likelihood that the desired work window will be available.
- i. Access by a Customer to any staging or shared work area, may be restricted by Paratus at any time, including when another customer is in such area.
- j. Every person who accesses the Data Center must use the current specific access control system and procedure to enter and exit the Data Center.
- k. Paratus may deny access to the Data Center to authorised persons or accompanying persons who do not have a business purpose at the Data Center even where such access has been prearranged.
- l. Immediate access is permitted for emergency work only. In such cases, the event must be accompanied by notification to the NOC by one of the Customer appointed administrators detailing the nature and requirement of such access. To maintain the integrity of the Data Center's security, emergency access will not be granted to person(s) who have not been identified to Paratus as authorised customer persons.
- m. The Customer must provide Paratus with written notification of any changes to the Customer's list of authorised persons for the Data Center at least one (1) business day in advance of such effected change.
- n. Paratus may require any or all authorised persons of the Customer to have a full-face photograph taken at the Data Center for secure identification.

5 Shipping and Deliveries

- a. The Customer is responsible for (i) scheduling with a shipper all shipments for the Customer to and from the Data Center; (ii) paying all fees associated with the shipments, including all shipping, retrieval and related fees charged by the shipper; (iii) completing all necessary paperwork for the shipments; and (iv) notifying the

shipper that all shipments will be shipped to, or retrieved from, the shipping/receiving areas designated by Paratus.

- b. The Customer will ensure that all shipments (including the boxes) are clearly labelled with the company name and/or identifier of the Customer. Unidentified packages will not be accepted.
- c. Paratus will make reasonable efforts to accommodate huge quantity or large shipments and after-hours deliveries.
- d. Paratus reserves the right to visually and/or physically inspect any and all shipments to or from the Data Center. Shipments containing liquids, combustibles and any hazardous materials will not be accepted nor will delivery of visibly damaged shipments be accepted. Should inspected shipments contain contents that do not match the accompanying documents, Paratus reserves the right to reject such items.
- e. Limited moving equipment, such as trolleys, will be available to assist the Customer if the Customer schedules the use of such moving equipment with Paratus.
- f. Paratus is not responsible for any missing or damaged shipments.
- g. Paratus will take reasonable care when facilitating shipments to or from the Data Center. All shipments are facilitated, received, sent or stored at the sole risk of the Customer and neither Paratus its agents, directors, associates, partners, employees, management, contractors or affiliates can be held be liable under any circumstance or any conditions, for whatsoever reason.

5.1 Scheduling of Shipment

- a. The Customer must schedule the delivery via the NOC one (1) business day in advance providing the waybill number, expected time of delivery, Customer name and instructions for storage/handling.
- b. The Customer must ensure that all shipments to or from the Data Center will be made during business days (Monday - Friday), from 08h30 until 16h30.
- c. Emergency shipments to the Data Center must be scheduled directly by calling the NOC followed by an email to the support address to accommodate such instances, were possible.

- d. Paratus will make reasonable efforts to accommodate huge quantities or large shipments and after-hours deliveries. Shipments in excess a volume of 1m³ and/or in excess of 100Kg will be regarded as large shipments.
- e. Customers are to inform Paratus via the support address to extend or cancel the shipment receipt date if the shipment does not arrive at the scheduled time.

5.2 Arrival of Shipment

- a. The Customer is responsible for moving the shipment from the shipping/receiving area immediately upon its arrival to their Space.
- b. If the shipment is not removed by the Customer from the shipping/receiving area upon its arrival, Paratus will place the shipment in a secure area at the Customer's expense under the Remote Hands Service. Customers must move the shipments from the secure storage to the Customer's Space within three (3) calendar days after notification of arrival by Paratus.
- c. If the Customer has not retrieved its shipment from a secured area within three calendar days after the shipment has arrived, Paratus will notify the Customer that the shipment may be returned to the "shipped from" address at the Customer's expense under the Remote Hands Service, unless the Customer made prior arrangements with Paratus.
- d. The Customers is also responsible for moving their shipments from their Space to the shipping/receiving area and completing all necessary paperwork for the shipments when removing equipment.
- e. The Customer is required to dispose of all packing materials at the designated disposal area in the staging area. Packaging materials left by the Customer, will be removed and automatically charged under the Remote Hands Service.

6 Tours

- a. In general, casual visits and/or tours to the Data Center will not be allowed. In exceptional cases, approval of a tour or casual visit may be granted to a customer during working hours.

- b. For any site tours of the Data Center, the Customer's primary or secondary contact must arrange such site tour with the NOC and the Account Manager (sales representative) no later than 15h00 the business day before the requested tour, and provide the following information on the Access Request Form:
- i. the name of the visitor(s);
 - ii. each visitor's ID number
 - iii. the name(s) and organisation(s) of any visitor not on the Customer's authorised persons list;
 - iv. purpose of the tour;
 - v. preferred date and time of the tour;
 - vi. authorisation to access a specific leased cabinet(s) and/or space(s) (for existing customers only); and
 - vii. any special instructions associated with the specific tour.
- c. Tour size is limited to a maximum of five (5) visitors on all tours unless Paratus agrees to accommodate more persons. The tour will be guided by one Paratus representative. Should the group be larger than five (5) visitors, Paratus will arrange for one Paratus representative for every five (5) visitors, subject to availability and practicality.
- d. Tours are also limited to the following times only: 10h00 – 15h00 Monday to Friday.
- e. The Customer may be accompanied by the Customer's Account manager.
- f. Access to the Data Center will follow the same procedure as for a 3rd party.
